

Georgina Wharton

As a teacher and achievement leader at Heanor Gate Science College I am in the privileged position of having a holistic view of our school and how we are developing and sustaining our successes. As a teacher and a governor I am excited that we continue to build a learning environment where pupils develop their personal aspirations and have the support to achieve their full potential. I am proud to be part of a governing body that aspires for excellence and takes an active role in the school life. I am passionate about being part of a team of governors that continues to deliver sustainable success at HGSC.
