

Richard Havill

I am from the local area, and, having moved away following University, I have now resettled in the Smalley area to raise my own family. I am an invested member of the local community and I am proud to serve as Community Governor at Heanor Gate Science College.

I have a passion for education and the progress of our young people. I have taught Art & Design for over 10 years at a large Secondary School and Sixth Form in the West Midlands. I have consistently taught all year groups 7-13 and held several positions of responsibility. I have led at a Departmental level and currently lead at a Pastoral level.

I believe in the potential of all pupils to succeed. I have a desire to ensure that the HGSC school community continuously improves. I want to help ensure that we establish an outstanding school that I will be proud to send my own child to.
