

March 2018

Dear Parent/Carer

As you will be aware, Year 11 students have recently received their mock examination results for the formal assessments that they completed prior to February half-term. As the Year 11 exams draw closer our teaching staff are working diligently with all students to ensure that they feel supported with their final preparations.

Throughout Easter and May half term we are offering revision classes and the school will also be open on scheduled Saturdays so that students can access support. I have enclosed the revision overview up to Friday 6 April.

Revision classes will be lessons led by specialist teachers, the sessions will be planned in advance so we would be immensely grateful if students could arrive to the sessions promptly and bring the required equipment. The sessions will run from 9am to 3pm unless otherwise stated.

We are very proud of the hard work and dedication showed by our Year 11 students and we wish them every success for their forthcoming examinations.

Thank you for your continuing support.

Yours sincerely

Mr S Huntington
Principal

Saturday Schedule prior to Easter

- Saturday 17 March – Psychology - 9-12pm
