"I chose to study Beauty Therapy at sixth form as I want to be a professional make-up artist when I finish my studies. Beauty therapy will give me the basic skills necessary to reach level 3 where I will be able to study make-up which I can then continue at a higher level. The salon environment is warm and friendly; you will be able to book in your own clients to practice services you have learnt which will give you a feeling of real salon working conditions. What I enjoy most about this course is the friendly atmosphere; students work on each other when developing skills, which improve communication and teamwork skills."

– Current student Emily Hanson
